NOTIFICATION

Subject: Vacancy announcement: Director, Science

Dear Madam, Sir,

Inter-American Institute for Global Change Research (IAI) is recruiting a Director to manage the IAI's science program and activities. This Directorship is an executive position that reports directly to IAI's Executive Director, with responsibility for implementation of the IAI scientific agenda focused on global change.

The Director, Science is expected to identify key scientific strategic issues, opportunities and risks and assist the Executive Director in generating and communicating broad and compelling institutional scientific strategies and direction. He/She should also be able to communicate clearly links between the IAI's *Strategic Plan* and *Scientific Agenda* and national priorities as articulated in a regional context.

The IAI Directorate plans to establish a search committee, with the participation by the Chairs of the IAI Executive Council, the Scientific Advisory Committee and the Science-Policy Committee, to assist in the evaluation of candidates. Parties with an interest in joining the committee should contact the Ms Soledad Noya (soledad@dir.iai.int) at their earliest convenience but no later than 11 February 2019. The IAI Directorate would suggest that three Parties representing North America, Central America and the Caribbean and South America respectively could best provide much needed input to the evaluation process.

A copy of the vacancy announcement is attached for your information. Parties are invited to provide copies of the attached document to potential candidates for the post.

Please accept, Madam/Sir, the assurances of my highest consideration.

Yours sincerely,

Marcos Regis da Silva
Executive Director
