## NOTIFICATION

### Subject: Nominations for the IAI's Expert List

Dear Madam or Sir,

The IAI Directorate is pleased to invite Parties to nominate experts to expand the List of Experts initiative on the institutional website. IAI's Expert List aims to provide decision-makers, scientists, members of civil society, media, and other regional actors with a curated list of people across IAI Parties who are available for technical consultations.

Experts are professionals with comprehensive and authoritative knowledge in a specific area related to the IAI's priorities. These experts will be added to the [IAI's Expert List](#), which currently includes former and current members of the Scientific Advisory Committee (SAC) and the Science-Policy Advisory Committee (SPAC), and investigators from research projects funded by the IAI.

The experts will be categorized based on their areas of expertise, aligned with the eight scientific themes of the IAI Strategic Plan: i) Food Security; ii) Energy Security; iii) Water Security; iv) Biodiversity and Ecosystem Services; v) Climate Action; vi) Health and Well-Being; vii) Poverty and Equity; and viii) Clean Air, Water, and Soils. Additionally, their geographic experience will be considered to ensure a comprehensive understanding of the relevant contexts across IAI Parties.

Parties are invited to submit nominations for the Expert List by sending an email to [science@dir.iai.int](mailto:science@dir.iai.int), by **6 June 2025**, indicating the following information: full name, affiliation, email and area of expertise (of the eight themes noted above).

Please accept, Madam/Sir, the assurances of my highest consideration.

Anna Stewart Ibarra  
Executive Director
