## NOTIFICATION

**Subject: Free, certificate-based course on adaptation measures to prepare health systems for the impacts of climate change**

Dear Madam or Sir,

The IAI Directorate is pleased to announce the launching of the **free, certificate-based course titled “Scaling Up Health Adaptation Measures to Meet the Climate Change Challenge in the Americas”** designed for professionals in the health sector, emergency preparedness and disaster response, including health systems planners, hospital administrators, healthcare professionals, paramedics, public health officials and other decision-makers.

This course is hosted by the Global Consortium on Climate and Health Education (GCCHE), the World Health Organization (WHO), the Pan American Health Organization (PAHO), the Inter-American Institute for Global Change Research (IAI), the EarthMedic and EarthNurse Foundation for Planetary Health, and Health Canada. It aims to equip participants with the knowledge and tools necessary to **rapidly scale-up adaptation, mitigation, and resilience efforts** to prepare health systems for the impacts of climate change.

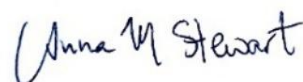

The course will be delivered with interpretation in Spanish and English, and presentations will also be available in French and Portuguese.

More information and the registration link are available [here](#).

The IAI Directorate encourages you to share this information with colleagues, institutions, and networks that may benefit from attending and obtaining the certificate.

Please accept, Madam or Sir, the assurances of my highest consideration.

Yours sincerely,

Anna Stewart-Ibarra  
Executive Director
