

CARLOS PORTILLO-QUINTERO

Texas Tech University

USA

Dr. Carlos Portillo is an assistant professor in the Department of Natural Resources Management at Texas Tech University, USA. He currently teaches and conducts research using Geographic Information Systems and remote sensing techniques for applications in biological conservation and ecological studies.

Prior to joining the Tech faculty, Portillo worked as a postdoctoral research fellow in the Center for Earth Observation Sciences at the University of Alberta, Canada; and at the Center for Botanical and Agroforestry Studies at the Venezuelan Institute of Scientific Research in Maracaibo, Venezuela.

He also worked as a graduate research and teaching assistant in the Department of Earth and Atmospheric Sciences at the University of Alberta-Edmonton; and as GIS and remote sensing advisor and analyst at the Conservation NGO PROVITA in Caracas, Venezuela. Portillo-Quintero received his bachelor's degree in Biology from the Universidad del Zulia, Venezuela. His doctorate in Earth and Atmospheric sciences is from the University of Alberta in Edmonton, Canada.
