

EDWIN J. CASTELLANOS
Universidad del Valle de Guatemala
Guatemala

Co-Director of the Research Center on Environment and Biodiversity at Universidad del Valle de Guatemala, UVG. He is also member of the Guatemalan National Council on Climate Change, the highest political decision body on climate change for the country.

He holds a Ph.D. in Environmental Science from Indiana University and a M.S. in Analytical Chemistry from Michigan State University, both in the U.S.

He has worked for the last 20 years in topics related to mitigation (carbon sequestration in forest ecosystems) and adaptation (within rural communities) to climate change in the Mesoamerican region.

He was Lead Author in the chapter on adaptation and vulnerability for Central and South America of the IPCC Fifth Assessment Report, and has served on several IPCC workshops as an expert on green house gas inventories. Currently, he is the chair of the Scientific Advisory Committee for the IAI.
