

Fatemeh Hatef Fard
University of Tehran
Iran

I am Fateme Hatef Fard, I am a master student in Soil Genesis and Classification at university of Tehran. My master thesis is about Assessing Different Soil Data Processing Methods for Soil Mapping. I also received my bachelor's degree in soil science from University of Tehran, Iran. During my bachelor's, I worked on a project entitled "Developing and design pedon description software". I would like to continue my future research on sustainable development, land suitability, land evaluation, remote sensing, digital soil mapping and the effects of various environmental factors on soil.
