

Suleiman Kehinde Bello
Ahmadu Bello University, Zaria
Nigeria

In 2011, I earned my Bachelor of Agriculture (B. Agric) degree in Plant Breeding and Seed Technology from the Federal University of Agriculture, Abeokuta (FUNAAB), Ogun State, Nigeria. In 2015, I also earned my Master of Science (M.Sc.) degree in Soil Science with specialization on soil microbiology/fertility from Ahmadu Bello University (ABU), Zaria, Kaduna State, Nigeria. Presently, I am undergoing my Doctor of Philosophy (PhD) studies in Soil Science with specialization in Soil fertility/microbiology at Ahmadu Bello University (ABU), Zaria, Kaduna State, Nigeria. My proposed research is entitled “Measuring and Modelling the Effect of Integrated Soil Fertility Management (ISFM) Technology on Soil Productivity in Northern Nigeria.” My area of research interests are soil fertility/microbiology, plant nutrition, crop production, modelling and statistical analysis.
