**Centro de Investigación en Alimentación y Desarrollo  
Mexico**

Rafael Hernandez-Guzman, Ph.D. (Environmental Sciences) is working formerly as Technician and currently as Researcher at Environmental Management Laboratory of the Research Center for Food and Development (CIAD A.C.) Mazatlan Unit since 2006. Born on August 24, 1982, in San Blas, Nayarit, Mexico, he received his B.Sc. from Universidad Autónoma de Nayarit in 2004, his M.Sc. from CIAD A.C. in 2006 and his Ph.D. from Universidad Nacional Autónoma de México in 2011, with honors in all the cases. He specializes in remote sensing and GIS application in the field of hydrology. His Ph.D. research was focused on assessment and understanding the water requirements for coastal wetlands maintenance and conservation.
