 Sustainable Agriculture Landscapes and Forest Restoration

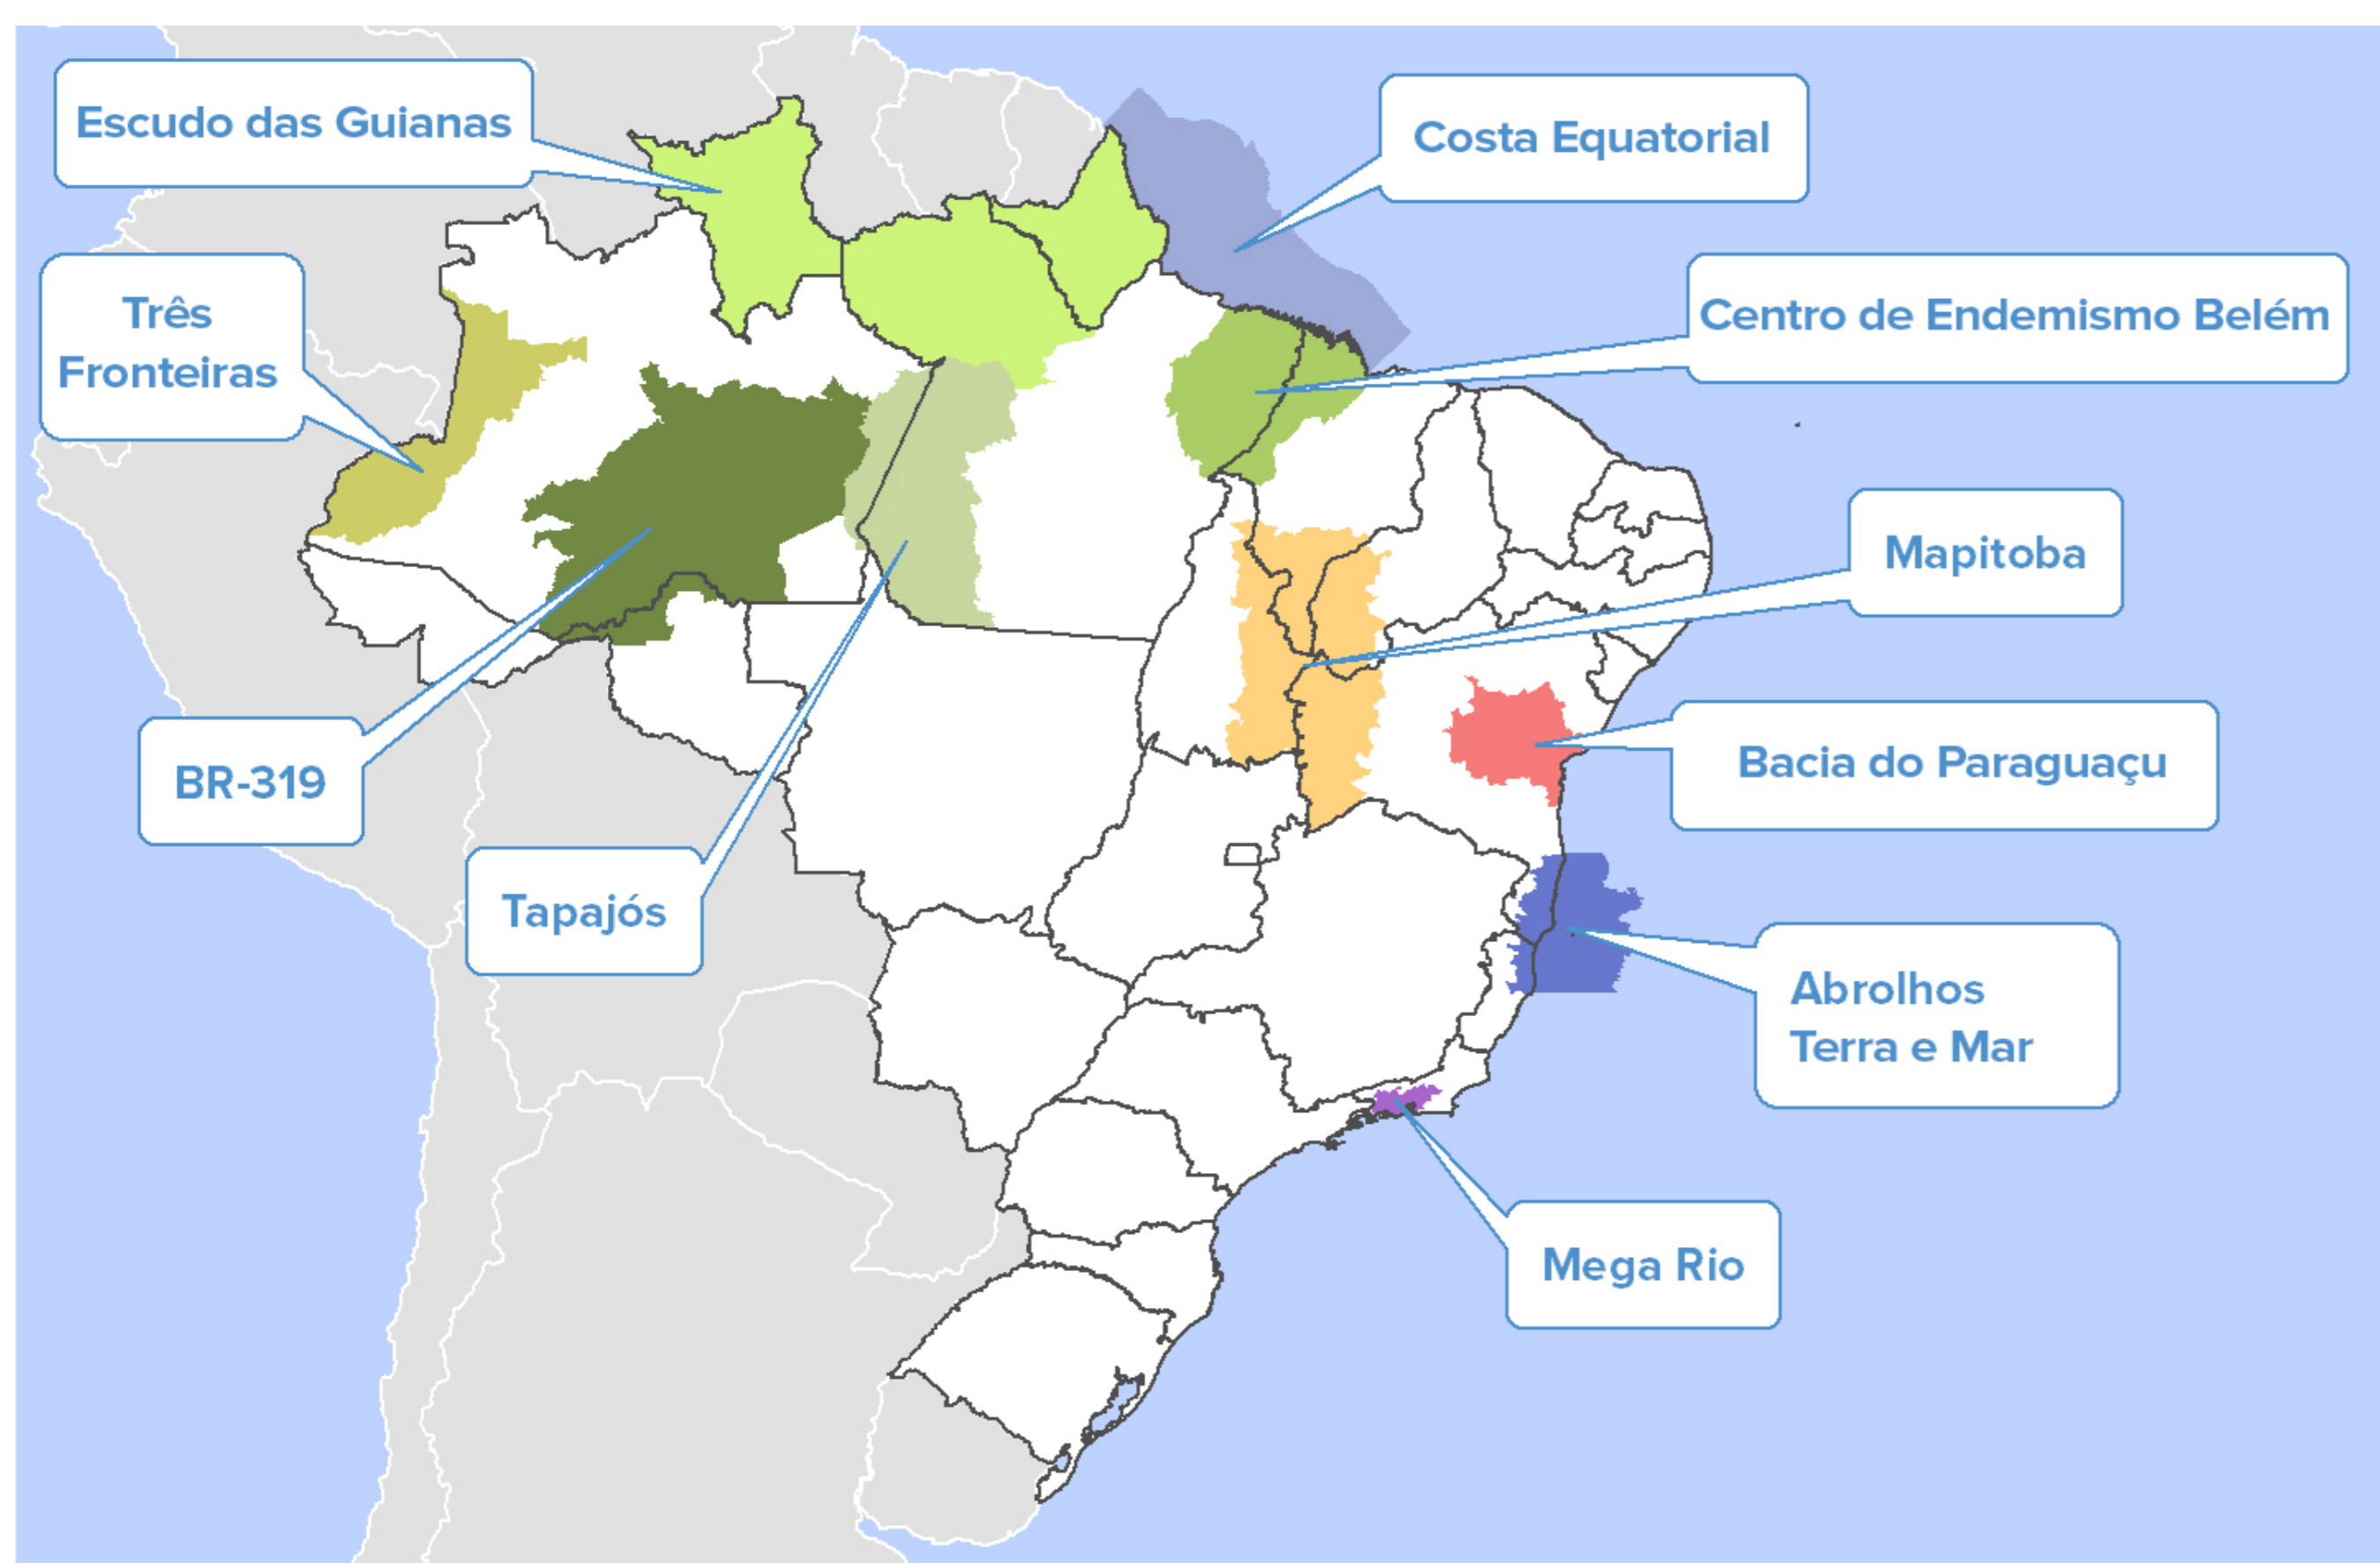

OUR APPROACH

OUR APPROACH DIMENSIONS

OUR PRIORITY GEOGRAPHIES

OUR PRIORITY THEMES

At CI-Brazil, one of my core activities is to support the development of strong proposals to fund our work in Brazil in alignment with our mission and strategies for each priority theme and territory.

To be able to support the proposal development process in accordance with CI's mission and approach, I need to be able to engage with multiple themes, disciplines and sectors and consider policy for impact amplification.
