

FRANCO CALDERÓN MATURANA

Dirección General de Águas

Chile

For 5 years, I have worked at “Departamento de Administración de Recursos Hídricos de la Dirección General de Aguas de Chile”. My main function there is to evaluate the available water resources for the granting of water rights. Furthermore, I have also participated in defining criteria for the development of standards in the field of water resources management in my country.

Agronomist, graduated from the Universidad de Talca Chile in 2002, with a post graduate diploma in Applied Hydrogeology in Mining and Environment, held at the Universidad de Chile, Santiago.
