INDEPENDENT AUDITOR'S REPORT

To the Executive Council of Inter-American Institute for Global Change Research - IAI

Opinion

We have audited the accompanying financial statements of Inter-American Institute for Global Change Research -IAI ("the Institute"), which comprise the balance sheet as of June 30, 2019, and the related statements of operations and comprehensive operations, changes in net assets and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory notes.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of Inter-American Institute for Global Change Research - IAI as of June 30, 2019 and the results of its operations and its cash flows for the year then ended in accordance with generally accepted accounting principles in the United States of America.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Institute in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements that are relevant to our audit of the financial statements in Uruguay, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with generally accepted accounting principles in the United States of America, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Institute's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Institute or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Institute's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements. whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Institute's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Institute's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Institute to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Note 1. Organization

1.1 Nature of operations

The Inter-American Institute for Global Change Research - IAI (the "Institute") is an intergovernmental organization dedicated to supporting global change research, increasing the scientific capacity of the Americas, and to providing information in a useful and timely manner to policy makers. Its primary objective is to encourage research beyond the scope of national programs by advancing comparative and focused studies based on scientific issues important to the region as a whole.

In recognition of the importance of a regional approach to the study of global change, sixteen countries of the Americas signed the Agreement establishing the IAI on May 13, 1992 in Montevideo, Uruguay. The IAI Conference of the Parties in Mexico City, Mexico, in September 1994, elected the Instituto Nacional de Pesquisas Espaciais ("INPE") in São José dos Campos - São Paulo, Brazil, as the site of the IAI Directorate. The Directorate was inaugurated on March 1, 1996. For financial reporting purposes, the Directorate became fully operational on July 1, 1996. Nineteen countries had ratified the IAI Agreement as of June 30, 2007. In February 2012, the Conference of the Parties decided to move towards a Tri-Partite structure for the IAI Directorate, including a Science Planning office in Sao Jose dos Campos, a Science-Policy Liason office in Buenos Aires, and the Integrated Operations and Finance Directorate of the IAI to be moved to Montevideo. The moving occurred in the beginning of fiscal year 2014/2015.

The IAI Director is responsible for implementing the institutional policies and programs determined by the Conference of the Parties, the governing body of the IAI. The Scientific Advisory Committee provides general direction for the development and implementation of the IAI's scientific agenda and oversees a competitive peer review system. The IAI Executive Council assists the Conference of the Parties by providing recommendations related to IAI policies and advancement. The IAI receives voluntary contributions from member countries to support the operations of the Directorate.

The scientific programs and activities are supported by contributions from IAI member countries as well as from international funding agencies and programs. These funds are used to fund short-term research programs (up to 18 months) and long-term research programs (from 2 to 5 years).

The IAI Research Programs are composed of projects selected through a competitive process that may involve two steps: 1) presentation of a pre-proposal and 2) full proposal if the pre-proposal is approved. The evaluation of the proposals includes scientific and financial reviews.

The financial support provided by the IAI to the research activities has also permitted the different research groups and institutions to increase the contribution received by obtaining additional support within their own countries or from other agencies. In the case of the CRN Program, according to the information collected from the different research groups, support for students obtained from other sources almost tripled the support received from IAI.

Note 2. Presentation of financial statements and significant accounting practices

2.1 Presentation of financial statements

The financial statements were prepared in accordance with accounting principles generally accepted in the United States of America.

Although the IAI is based in Uruguay, it maintains its official accounting records in U.S. dollars. Most of IAI's transactions are denominated in U.S. dollars; expenses in other currencies were translated at monthly average exchange rates.

The cash and cash equivalents originated in \$ (Uruguayan pesos) were translated into U.S. dollars using the official rate of exchange as of June 30, 2019 and 2018.

The official rate of exchange as of June 30, 2019 was \$ 35.182 per US\$1.00 and \$ 31.466 per US\$1.00 as of June 30, 2018.

2.2 Significant accounting practices

The main accounting practices used in preparing these financial statements are as follows:

2.2.1. Accounting classification

Receivables and payables with maturities of more than 12 months from the balance sheet dates are considered as long-term.

2.2.2. Cash and cash equivalents

IAI considers all highly liquid investments purchased with maturity of three months or less to be cash equivalents.

2.2.3. Allowance for doubtful contributions from member nations

This allowance is calculated at an amount considered adequate by management to cover any losses arising from collection of the requested contributions.

2.2.4. Property, plant and equipment and Intangible assets

Consist of computer hardware and software recorded at purchase cost, including interest and other finance charges applicable. Depreciation is calculated using the straight-line method over an estimated useful life of five years for all them, with the exception of furniture, ten years.

2.2.5. Receivables and payables

Receivables and payables are price-level adjusted according to the exchange rates or indices and interest rates specified in the contracts in force, to reflect amounts accrued through the balance sheet date.

The revenues related to specific projects, and considered as temporarily restricted revenues, are those that have temporary restrictions imposed by the donor. These restrictions permit the use of the assets as specified in the grant agreement and are satisfied either by the passage of time or by the actions of the organization.

Management notes to the financial statements For the years ended June 30, 2019 and 2018 (in U.S. Dollars)

2.2.6. Recognition of revenues and expenses

Contributions from member countries to the Core Budget, considered as Unrestricted Revenues, are recognized when they are received. The core budget expenses are generally recognized when they are incurred.

Until June 30, 2005, the research expenses and the respective amounts payable to the Research Institutes under the CRN I grants were recognized when the research agreements between the IAI and the Research Institutes were signed.

After that, for all programs, the expenses and the respective amounts payable to the research institute were recognized when the grantee institution meets all the conditions set in the grant agreement. The transfers of funds to the grantees are recorded as advances until the expenses are duly reported and the financial report is approved.

2.2.7. Income taxes

IAI is exempt from income taxes under Uruguayan tax legislation.

3. Cash and cash equivalents

	2019	2018
Proyects	808,206	367,658
Core Budget	529,981	524,987

4. Scientific programs

The columns for each line item represent the cumulative values as of June of each year. The difference between both columns represents the financial activity during 2019 and 2018 fiscal years.

The projects are conducted by grantee institutions that receive the grant and assume legal and financial responsibility and accountability both for the funds awarded and for the performance of the grant-supported activity, and by a principal investigator who is the individual designated by the grantee and approved by IAI.

4.1. Collaborative Research Network Program - CRN I

The National Science Foundation (NSF) and the Agencia Nacional de Promoción Cientifica y Tecnológica de Argentina (ANPCYT) have agreed to make awards to IAI to support the Collaborative Research Network - CRN I, a network for global change research in the Americas.

The CRN I Project started in March 1999 and the total amount of support requested for this project from the National Science Foundation - NSF was approximately US\$ 10.000.000, which would be provided over a period of 5 years. For each year, NSF has sent an amendment to confirm the correct amount that the Institute could recognize in that year.

4.2. Training Institutes on Interdisciplinary Global Environmental Change in the Americas

On September 22, 2004 the National Science Foundation (NSF) approved a grant to support the "Training Institutes on Interdisciplinary Global Environmental Change in the Americas". The original expiration date of the grant, which totalled US\$ 330.000, was February 28, 2006.

These funds were used to support two Training Institutes, one in Paraguay, another in Jamaica, and a "Seed Grants" Program.

The first advance of funds was requested to the NSF on September 27, 2005.

On February 10, 2006 the NSF approved an extension of the expiration date, without additional funds, until February 28, 2007.

4.3. Training Institutes to Develop Capacity in Interdisciplinary Global Environmental Change Sciences

On August 1st, 2008, the National Science Foundation approved a grant of US\$ 300.000 to support the project (GEO-0745732). This award will expire on January 31st, 2011.

The activities related to the new Training Institutes started on February 2008, but the grant covered only the expenses incurred after May, 2008.

The expenses incurred before that, were covered by CRN II program funds:

9. Defined contribution benefits

In the case of the foreign employees, the employment contract provides for a Retirement Plan as follows: "Retirement. The Employee's monthly contribution will be matched two-for-one by the IAI, but will be capped at fourteen (14) percent for the Employer's contribution. The maximum contribution for retirement will be twenty-one (21) percent of the monthly salary, representing the Employee's maximum contribution of seven (7) percent and IAI's maximum contribution of fourteen (14) percent."

The employment contract between the Director and the IAI is approved by the IAI Executive Council and signed by the Chairman of the Executive Council on behalf of the IAI. The employment contracts with the rest of the foreign employees are signed by the Director on behalf of the IAI. The contribution from IAI during fiscal year 2018/2019 was US\$79,679 (US\$78,665 in fiscal year 2017/2018).

10. Subsequent events

The Institute evaluated subsequent events as of Apr 22, 2020.
