

GRACIELA TEJADA PINELL

National Institute for Space Research (INPE)

Brazil

Graciela is a Bolivian Environmental Engineer that has been working with forest biomass in the context of climate change since 2006 with her MSc thesis (ITC-The Netherlands). Also has relevant work experience in tropical forest biomass-carbon quantification for REDD projects in Bolivia and Cameroon from 2008-2010. In 2010, she was in charge of the forest and biodiversity component at SINERGIA Project. Inside of the AMAZALERT project (2011-2014), she made a review on Amazon ecosystem functions and services and their drivers of change and then worked with deforestation scenarios for the Bolivian Amazon. Now she is making her PhD at the Earth System Science Center (CCST) of the National Institute for Space Research (INPE) in Brazil, assessing Amazon forest biomass.
