

MARISSA CASTRO MAGNANI

University of Alberta

Canada

I was born in La Paz -Bolivia, it was in my home city where I graduated with honors as a Geographical engineer at Universidad Mayor de San Andrés in 2012. From 2012 to 2015 I worked for the Vice-presidency of the Plurinational State of Bolivia in the use of geographical information technologies for the implementation of the Spatial Data Infrastructure eventually called GeoBolivia. In 2016 I started my graduate studies at the University of Alberta (Canada) sponsored by the Program: 100 scholarships for the technological development and scientific sovereignty in Bolivia, my research is based on the biophysical quantification of ecosystem services in Parque Nacional Santa Rosa (Costa Rica).
