

INTER-AMERICAN INSTITUTE FOR GLOBAL CHANGE RESEARCH

Ref: IAIUYDIR/2022/03

20 January 2022

NOTIFICATION

Subject: The IAI MOOC Climate Change in Latin America has a new domain name

Dear Madam, Sir,

The IAI Massive Open Online Course (MOOC) Climate Change in Latin America has a new domain name: <https://cclatam.iai.int/>. Parties are invited to update hyperlinks to or information on the MOOC that they may have.

The new domain name reflects more accurately the administration of the course and its ownership by Parties to the IAI.

The course remains highly popular and continues to experience a high rate of usage. However, it urgently needs updating to better reflect current trends related to climate change and to enhance its interactive modules and communication tools.

Parties and donors are encouraged to communicate with the IAI Directorate should they be interested in supporting the re-design and updating of the MOOC.

Questions on the MOOC may be sent to Ms. Soledad Noya at: soledad@dir.iai.int.

Please accept, Madam/Sir, the assurances of my highest consideration.

Yours sincerely,

Marcos Regis da Silva
Executive Director
