

**Ariane de Almeida Rodrigues**  
**University of Brasília**  
**Brazil**

Ariane A. Rodrigues is a first-year student in the MS in Environmental Sciences at the University of Brasília, with a background in law and environmental sciences. Additionally, she has a graduate degree in GIS and remote sensing techniques. Her research is focused on the flux of goods and services between ecosystems and societies in the Cerrado biome. Prior to her graduate course, she worked to the Ministry of Social Assistance and Fight against Hunger, in Brazil, to foster the collaboration in policymaking between government representatives and social organization members. She also worked in several areas in the environmental field, including biofuels research, composting technologies and environmental education. Ariane is interested in conservation of tropical biomes, ecosystem services and environmental policies.
