

**Daniel Masika**  
**University of Ghana**  
**Ghana**

Daniel graduated with a BSc. Agriculture (Soil Science) honours degree from the University of Nairobi-Kenya. He is currently finalizing his MPhil. Degree in Soil Science, with specialization in Soil Physics and Conservation. Daniel has research interests to environmental sustainability and Soil-plant-atmosphere interactions to ground water recharge (PhD. to commence soon at the University of Reading-UK). He has worked as a soil surveyor in the Vast Eastern African regions of Ethiopia, Kenya, Uganda and Tanzania. He has also worked in collaboration with the USAID to implement the soil testing and fertilizer recommendations for small and medium scale farmer in the regions. Daniel is hardworking, persistent, charming, diligent and enthusiastic in holistic approaches and target oriented among others. Sports, studying documentaries and nature adventures are some of his hobbies.
