

DANGELA FERNANDES

Itaipu Binacional

Brazil

My name is Dangela Maria Fernandes, Environmental Engineer and Environmental Technologist, Master in Energy in Agriculture and PhD in Agronomy current. Nowadays I am Environmental Analyst in renewable energy projects' team of the International Center of Renewable Energy - Biogas (CIER), located in Itaipu Technological Park Foundation (FPTI). I have been working at FPTI for about five years, in the projects' preparation and implementation related to the nexus of water and energy, also research and development, and fund-raising for projects.
