FRANCISCO G. ALANIZ URIBE BScArch, MPDU, MEDes (Urban Design), MCIP, RPP

Francisco Alaniz is an Assistant Professor in the Faculty of Environmental Design at the University of Calgary and a Co-Director of the EVDS Urban Lab. He is a registered planner in Canada and a registered architect in Mexico. He teaches in the Master of Landscape Architecture and the Master of Planning. With the Urban Lab, he has managed projects and supervised students in several campus planning, downtown revitalization, open space planning, and urban planning projects in towns and cities in Alberta, British Columbia and Saskatchewan. His research focuses on the quality of the public realm and the relationship between urban form and human experience.
