

**Wubayehu Gebremedhin Wolde**  
**Addis Ababa University Faculty of Life Sciences**  
**Ethiopia**

My name is Wubayehu Gebremedhin. I am MSc graduate student in the department of Microbial, Cellular and Molecular Biology and specializing in Soil microbiology on my thesis work at Addis Ababa University, Ethiopia. Additionally I have BSc degree in Plant sciences and three years of proven experience as researcher in land and water research directorate of Ethiopian Institute of Agricultural Research, Pawe Agricultural Research Center in Integrated soil fertility and Management of Problematic soil research divisions. I enjoy workin in rhizobiology particularly on Isolation, characterization and evaluation of microbial strains for better chickpea production in my current study.
