

Teamwork Skills

Kathy Halvorsen and Erin
Pischke

Objective

- Strengthen your ability to create, work in, and manage an effective TD research team

Task

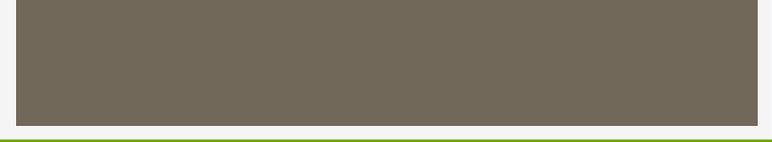

- By proposal team
- Listen to teams present TD team lessons learned
- Use lessons to develop “ideal” process for your teamwork stage
- If you could start again, how would you create the perfect team, proposal, and project?

Assignments

- Team Coping: *Creation Stage* How would you create the perfect TD research team?
- Team Cacao: *Coordination* What strategies will you use to work together over a long time and great distance?
- Team Grasslands: *Management* How will you effectively manage your team during proposal development?
- Team Water: *Award* How will you manage your funded research team during the research project?

Team Coping: *Creation Stage* How would you create the perfect TD research team?

- How will you identify a research focus?
- How will you identify team member needs?
- How will you choose team members?
- How will you entice them to join your team?

Team Cacao: *Coordination* What strategies will you use to work together over a long time and great distance?

- Software, cloud storage, social media etc.
- Communications?
- Meetings?
- File sharing?
- Writing coordination?

Team Grasslands: *Management* How will you effectively manage your team during proposal development?

- What roles will you take?
- How will you ensure good quality work is submitted on deadline?
- How will you keep people committed to proposal development?
- How will you ensure you meet funder guidelines?

Team Water: *Award* How will you manage your funded research team during the research project?

- What roles will you take?
- How will you ensure good quality work is completed on deadline?
- How will you keep people committed to the research project?
- How will you meet funder goals?
