

JOSÉ EDUARDO GONZÁLEZ ESTRELLA
Ministerio del Medio Ambiente de Ecuador
Ecuador

I work in the Environment Ministry of Ecuador (EME) as specialist in Desertification, Degradation of Land and Drought - DDTS. I have performed as Technical focal point of the United Nations Convention to Combat Desertification (UNCCD) since 2001 to 2004. In Ecuador I have worked as Scientific Focal Point of the UNCCD since 2010. Between the principal functions exercised, there is the following to the actions are implemented in Ecuador and are related to DDTS.

I also work as Post grad Level University Teacher of the National University of Loja; I have been working in different Mastery Programs in the formulation modules and projects evaluation, bio-business (microfinance), sustainable land and irrigation management.

I lead the process related to the National Action Plan to Combat Desertification and Drought-PAND in Ecuador, and the National Group of Work in Desertification-GNTD. I work in that with the 24 Provincial Directions of The Environment Ministry. I have represented my country in the regional and international UNCCD, GRULAC and COP`S meetings. Nowadays I am the Scientific National Correspondent of the International UNCCD Science and Technology Committee. I have directed projects with FAO, UNDP, between other international organizations.
