

MAX FELIPE THOMET ISLA

CET Sur

Chile

My name is Max Thomet Isla, I live in Temuco city today (Region de la Araucania-Chile) and my profession is Agronomist.

Since 2000 I work in the Ngo CET sur (www.cetsur.org), my work experience in the last 8 years was prioritized on the development of sustainable strategies for Agro-biodiversity conservation on peasants and Indigenous communities (Mapuches People in the south of Chile). Coordinating diverse project of participative research in traditional farmer systems.

In the same time I was coordinated projects of rural development (national and international funding) emphatically in training processes and strengthening local capacities for the conservation and sustainable managing of Agro-biodiversity and natural resources (Soils , water and Forest).

Just now I'm member of a inter-institutional group that developed a models of governance of basins in the Region de la Araucanía (Chile).
