

CECILIA CONDE
UNAM
Mexico

Cecilia Conde is a researcher at the Center of Atmospheric Sciences at the National University of Mexico (UNAM). She obtained her PhD in Earth Sciences, specializing in Atmospheric Physics.

In 2011 she received the Ecological Merit Award from the Mexican Minister of Environment, considering the importance of her studies on the potential impacts of climate variability and change in the country.

She has participated in 4 Mexican National Communications to the UNFCCC, and twice as a lead author in the IPCC assessments.
