7 July 2020

**CONFERENCE OF THE PARTIES TO THE
INTER-AMERICAN INSTITUTE FOR GLOBAL
CHANGE RESEARCH
Twenty-eighth meeting
Videoconference, 19 August 2020
Agenda item 12**

**Summary report of activities by the IAI Directorate during the
2019-2020 intersessional period**

1. This document has been prepared by the IAI Directorate.

Introduction

2. The extraordinary situation posed by the advent of COVID-19 prevented the IAI Directorate and the government of Paraguay from hosting the 28th meeting of the IAI Conference of the Parties (CoP-28) in Asunción, Paraguay. The IAI Directorate regrets that it will not be possible to meet in Asunción and is grateful for and acknowledges the efforts made by the government of Paraguay in the organization of CoP-28.
3. Several events related to the IAI Directorate's work during the intersessional period were to be presented and highlighted at the meeting. Additionally, other events focusing on research and science diplomacy were also planned.
4. In discussions with the government of Paraguay, the Chair of the Executive Council, and in consultation with other Parties, it was decided to delay CoP-28 until August 2019 and organize a virtual meeting via video conferencing systems.
5. It was also determined that CoP-28 would only address issues that require urgent and immediate attention such as the report of the Executive Council, the budget, and annual

report by the Directorate. Additional information on other topics relevant to the IAI Directorate's work program will be provided to Parties via notifications, communications and reports, and meetings during the 2020-2021 intersessional period.

6. The IAI Directorate notes that, at CoP-27 (Brasilia, 2019), Parties discussed the possibility of organizing meetings of the CoP on a biennial basis. They suggested that a biennial cycle to meetings of the CoP would provide many benefits including, but not limited to: increased time to implement decisions reached by the Parties, savings to the core budget, increased ability of the Directorate to focus on its work program as opposed to organization of the meeting, increased time to organize side events and invite researchers to present their results and more opportunities for the IAI Directorate to discuss with Parties their needs and priorities.
7. However, Article V, paragraph 3 of the *Agreement establishing the Inter-American Institute for Global Change Research*, stipulates that *The Conference of the Parties shall meet at least once every year*. Changing the annual CoP cycle, therefore, would require an amendment approved by a two-thirds vote in the Conference of the Parties per Article XV, paragraph 3 of the *Agreement*. The amendment would only come into force sixty days after the date on which two-thirds of the Parties have notified the Depository, through diplomatic channels, that they have completed their corresponding domestic legal requirements.
8. Given the challenges in finalizing amendments, Parties made several other suggestions including the possibility of organizing truncated meetings and holding the meetings via video conferencing systems.
9. In light of the above, the situation created by COVID-19 provides Parties and the IAI Directorate with the opportunity to access the benefits of holding a virtual truncated CoP on a biennial basis. Face-to-face meetings would be held every other year and offer Parties a more complete accounting of work by the IAI Directorate particularly its programs in support of science, capacity building and science to policy.
10. Accordingly, the IAI Directorate will evaluate the success of organizing CoP-28 via video conferencing and make recommendations to Parties at CoP-29.
11. This report, therefore, presents a brief summary of achievements by the IAI Directorate during the 2019-2020 intersessional period. The IAI Directorate will provide additional in-depth information to Parties during the 2020-2021 intersessional period on its work and achievements via notifications, reports and face-to-face meetings.

| <p>XXVII/5. The Science Advisory Committee and the Science-Policy Advisory Committee are instructed to further revise and update the IAI Scientific Agenda in line with the IAI Strategic Plan to better reflect transdisciplinary research and science with special attention to human issues and systems.</p> | <p>Theme II - Science for the Sustainability of the Americas: The Articles of the Agreement Establishing the IAI state that IAI should support science that improves the Americas' ability to cope with and thrive under global change. By achieving the guiding principles, transdisciplinary research, and the scientific goals and objectives, the IAI expects to make a positive impact towards the sustainability of the region, address the cross-cutting challenges posed by climate change, and support the Sustainable Development Goals (SDGs) and other multilateral targets within the context of national priorities.</p> | <p>The IAI has revised the science agenda, in coordination with the SAC and SPAC, to better reflect transdisciplinary research and science with special attention to human issues and systems. The Scientific Agenda will be discussed under agenda item 11 of the present meeting.</p> | <p>Future scientific activities supported by the IAI will be better able to address priorities for IAI parties (e.g., human issues and systems) via transdisciplinary research, in line with the IAI Strategic Plan.</p> |
|---|--|---|--|

| | | | |
|---|--|---|---|
| <p>XXVII/16. The IAI Directorate is instructed to continue exploring alignment of CRN4 with the Belmont Forum Collaborative Research Action (CRA), especially in light of efforts to develop a flexible funding mechanism for the Americas.</p> | <p>1.i.a. By the end of 2019, the Directorate, with support of the SAC/SPAC and in collaboration with the Belmont Forum, will execute the Collaborative Research Network 4 (CRN4) to fund inter and transdisciplinary research to assist the Parties in advancing the understanding of global change issues.</p> | <p>In February 2020, the IAI submitted a 5-year funding proposal to NSF (currently under review) that would provide financial support for the development of a flexible funding mechanism for the Americas, allowing for alignment with Belmont Forum Collaborative Research Actions (CRA).</p> | <p>The IAI will bring together key national and regional funders to create a flexible Inter-American funding consortium for global change research to collaboratively finance multi-country TD projects in coordination with the Belmont Forum, Joint Programming Initiatives (JPIs) of Europe, and others.</p> <p>The IAI Directorate notes that it was planning to host a meeting of funding mechanisms and donors on the margins of the Belmont Forum Plenary meeting which was to be held in October 2020 in Montevideo, Uruguay. Due to COVID-19, this meeting will be re-scheduled for the 2020-2021 intersessional period.</p> |
| <p>XXVII/17. The IAI Directorate is directed to continue working in collaboration with</p> | <p>1.iv.a. The Directorate, with the support of the SAC/SPAC, will</p> | <p>(1) The IAI Directorate has designed and implemented a transdisciplinary</p> | <p>(1) The results of this project will guide the development of public health</p> |

Report on capacity building

| Decision | Strategic Plan | Actions by the IAI Directorate | Results |
|--|--|--|---|
| XXVI/34. The IAI Directorate is instructed to initiate discussions with the Organization of American States with a view to establish a Memorandum of Understanding related to mutual support and collaboration on research related to global change in the Americas. | Theme I - Meeting the needs of the Parties' to address global environmental change problems. Goal 3. Parties have worked collaboratively towards the Vision of the IAI to accomplish more together than any one country can achieve alone. Theme III - Sustainability of the IAI. Goal 2. The IAI has raised its profile | In March 2019 the IAI and the OAS signed a Memorandum of Understanding. The agreement establishes a framework for cooperation mechanisms to provide stronger scientific contributions to policy responses and to build human and institutional capacities to support sustainable development in the Americas. As a result, the | Development of joint IAI-OAS activities and fundraising in the Caribbean that would strengthen the participation of Caribbean countries in the IAI. In addition, the participation of IAI at OAS's meetings promoted the engagement of the IAI with the Ibero-American Program of Science and Technology for Development (CYTED), and the |

| | | | |
|--|---|---|---|
| | <p>among Parties and external partners. Goal 3. All nations in the Americas have become Parties to the IAI.</p> | <p>Directorate has participated in several OAS conferences on scientific and technological cooperation, in particular, the Prospecta Americas meeting on “Transformative technologies, transdisciplinary science-policy networks, and global change” and the meeting of the Inter-American Committee on Science and Technology (COMCyT). Furthermore, IAI and OAS are jointly planning a High-Level Workshop: <i>Building a science-based agenda for improving decision-making on resilience in the Caribbean</i>, which will be hosted by the government of Dominica (event was postponed to 2021 due to COVID-19). The Caribbean meeting will be funded jointly by IAI and OAS with additional financial resources from Amazon Web Services, and NOAA with resources from the</p> | <p>signing of an MoU between the IAI Directorate and Peru’s National Council for Science, Technology and Technological Innovation (CONCYTEC).</p> |

| | | | |
|---|--|--|---|
| | | US-Caribbean Resilience Partnership. | |
| XXVII/17. The IAI Directorate is directed to continue working in collaboration with the Scientific Advisory Committee and the Science Policy Advisory Committee on the design and implementation of transdisciplinary research on aspects of global change related to the sciences of the earth, ocean, atmosphere, the environment and the social sciences in alignment with the IAI Strategic Plan. | 1.iv.a.The Directorate, with the support of the SAC/SPAC, will continue with research activities and current capacity building program of the IAI. | The Directorate has identified academic and policy collaborators interested in fostering TD training. It also engaged in fundraising to support the development of an international seminar and postgraduate course to contribute to TD curriculum development at a renowned academic universities in Latin America, the Faculty of Engineering and Water Sciences of the Universidad Nacional del Litoral (FICH/UNL), is a case in point. FICH/UNL is also a World Meteorological Organization (WMO) Regional Training Centre. The IAI also invited the private sector, the Argentine Association of Regional Consortiums of Agricultural | The IAI Directorate held an international seminar/postgraduate course and Science-Policy forum on <i>Integrating Global Change knowledge to decision-making processes: a transdisciplinary approach</i> in September 2019 in Santa Fe, Argentina. The IAI and partners developed an inter- and transdisciplinary academic curriculum for a master and doctoral training program at FICH/UNL. The IAI training was attended by graduate students, scientists, and professionals from the agriculture, water resources, disaster risk reduction, from the public and private sectors from 9 countries. Other collaborators and funders were the |

| | | | |
|---|---|---|---|
| | | <p>Experimentation (CREA), and other formal regional organizations, such as the La Plata Basin Intergovernmental Committee (CIC) to collaborate in this activity.</p> | <p>WMO, CIC, CREA, and the government of the City and Province of Santa Fe. A broader impact generated by these events was the interest in various sectors of society (local government, private sector, academia and the press), how to address, in an integrated way, major issues of global change such as land use change agricultural expansion and its impacts on regional climate, hydrology and other socioeconomic impacts, particularly in La Plata Basin, one the most important agricultural areas in the world. The IAI activities raised the interest of the press which covered the events of the IAI/FICH/UNL and interviews with several officials and IAI scientists.</p> |
| <p>XXVII/18. The IAI Directorate is instructed to implement the IAI</p> | <p>Guiding Principles: viii. Build capacities that enhances the knowledge and</p> | <p>The Directorate invited Parties to nominate members to the IAI informal</p> | <p>The STeP fellowship program was officially launched in June</p> |

Conclusions

12. This report does not purport to present a complete summary of activities organized by the IAI Directorate. Updates on activities omitted from this report will be provided to Parties during the 2020-2021 intersessional period. Unreported activities have not been completed due to the advent of Covid 19.
13. The IAI Directorate notes that activities described are fully supportive of Decisions adopted by the CoP and are aligned with the IAI Strategic Plan.
14. The IAI Directorate is grateful for the support received from Parties and its partners that made achievement of the IAI work plan possible.

Recommendation

15. The Conference of the Parties is invited to take note of this report.
